

We have an immediate opening for Installers in Phoenix, AZ! After approximately two months in Arizona our teams will migrate to the next state. Eventually covering the entire country. Installers are responsible for assisting the team leader in the removal of an existing safe and reinstallation of a new smart safe while overcoming possible counter modifications. You must be able to pass a felony background, driving, and drug test before hire. Travel is required. Lodging, food per diem and travel expenses included. Military encouraged to apply.

Primary Responsibilities

- Arrive on time in presentable dress and company uniform.
- Utilize safe driving practices to each job site.
- Possible assistance with the delivery of safes.
- Remove the existing safe.
- Installation of the new safe.
- If required, modify the shelving below the counter to fit the new safe configuration without interfering with store operations.
- Ensure proper and safe procedures during the installation process.
- Stage the old safe in a predetermined location for pickup and disposal.
- Disposal of all trash, packaging, and refuse materials in an offsite location.

Knowledge and Skill Requirements

- Prior experience in construction
- Must maintain good communication skills to be able to maintain favorable customer relationships.
- Attention to detail, thoroughness, and organizational skills are a **must**.
- Cabinet or metal work experience a plus
- Ability to follow direction
