

## Ready to deploy again?

*How about this time to Arizona and then the rest of the continental US?*

We have a long term project across the US that includes lodging, food per diem, cell phone, and all travel expenses. Qualified selected candidates will make \$100k per year! Military encouraged to apply.

We have an immediate opening for Team Leads in Phoenix, AZ! After approximately two months in Arizona our teams will migrate to the next state. Eventually covering the entire country. The Team Leader is responsible for the removal of an existing safe and installation of a new "smart safe" while overcoming possible counter modifications at retail locations. You must be able to pass a felony background, driving, and drug test before hire.

Travel is reimbursed and required.

### **Primary Responsibilities**

- Utilize safe driving practices to each job site in company vehicle.
- Manage one installation helper during the installation process.
- Remove the existing safe.
- Installation of the new safe.
- If required, modify the shelving below the counter to fit the new safe configuration without interfering with store operations.
- Ensure proper and safe procedures during the installation process.
- Complete documents and reports throughout the installation process.
- Program the new safe
- Training of the on-site store manager on the use of the safe.

### **Knowledge and Skill Requirements**

- Prior experience in construction, installation, or some mechanical knowledge
- Must maintain good communication skills to be able to maintain favorable customer relationships
- Attention to detail, thoroughness, and organizational skills are a must
- Familiarity and comfort operating in MS Excel
- Cabinet or metal work experience a plus
- Ability to read blueprints a plus
